before p90x, i never really focused much on plyometrics training

the highest rate of drinkers: 63 percent of its 6,547,629 residents over the age of 12 (4,125,006 people

i was young and without experience so i took it like a man

i mean, how good a liar could i have been to have gone through every benzo there was at the time those lovely red chloral hydrate that phillipa seems to like..?

we'll talk in detail about the evidence that is collected during the forensic exam - as well as exploring what can and cannot be concluded on the basis of this evidence
